Blue is Trump

19

## Trump Rule

Blue is Trump

20

## Trump Rule

The trump suit is the same as that of the first card played in the second trick.

21

## Basic Rule

Before the first card is led, each player passes 3 cards face down to the player to their right.

22

## Basic Rule

Before the first card is led, each player passes 3 cards face down to the player to their left.

23

## Basic Rule

Before the first card is led, each player lays one card face down. These cards are no longer in the players' hands, but are played for the last trick.

24

## Basic Rule

Before the first card is led, players simultaneously lay 3 cards from their hands face up in front of themselves. These continue to count as hand cards.

25

## Basic Rule

Only the first card of each trick is played face up. After each other player has played a face down card, they are all revealed.

26

## Basic Rule

Rather than the suit of the first card played in a trick, players must follow the suit of the most recent card played to the trick.

27

### Basic Rule

Forced Trumping:  
If the led suit cannot be  
followed, trump must be  
played.

28

### Basic Rule

The first card played to a  
trick cannot win it.

29

### Basic Rule

Rather than the highest,  
the second highest card  
wins the trick.

30

### Basic Rule

Card ranks are reversed.  
1 is the highest card in a  
suit and 15 is the lowest.

31

### Basic Rule

Trumps become anti-  
trumps. (which are lower  
than all other suits). If  
trump is led as the first  
card in a trick, all other  
suits are worth the same.

32

### Basic Rule

The led suit is not higher  
than other suits played to  
a trick, but trumps remain  
in force. A trump suit  
continues to be higher than  
all other suits.

33

### Basic Rule

The winner of a trick  
immediately removes a  
card from the trick. This  
card will not count in  
scoring for the round.

34

### Basic Rule

The winner of a trick  
immediately gives the trick  
to the player to his left.

35

### Basic Rule

The player immediately to  
the right of the winner of  
each trick makes the next  
lead.

36

### Basic Rule

The direction of play changes after each trick. The first trick is played clockwise.

37

### Basic Rule

After the third trick, each player simultaneously passes one card face down to the player to their left. If, because of another rule, the card passed was face up, the new owner puts it in their hand.

38

### Basic Rule

The winner of the last trick of the hand must give all of their tricks to the player to their left.

39

### Basic Rule

Each player's last 3 hand cards are not played. Instead, these 3 cards are scored as a trick for the player holding them.

40

### Scoring Rule

A trick is not worth just 1 point, but is worth as many points as there are suits in the trick.

41

### Scoring Rule

The total value of a trick that contains no picture cards is doubled.

42

### Scoring Rule

The total value of a trick that contains no trump cards is doubled.

43

### Scoring Rule

The total value of the fifth trick of the round is tripled. As a reminder, place this card atop the fifth trick taken.

44

### Scoring Rule

The total value of the last trick of the round is tripled. The total value of the first two tricks of the round is 0.

45

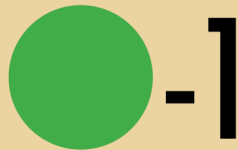

## Scoring Rule

Each picture card taken is worth 1 extra point.

46

## Scoring Rule

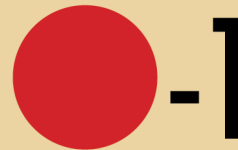

Each Green card is -1 point

47

## Scoring Rule

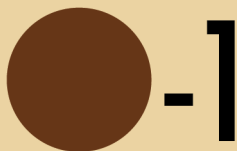

Each Green card is -1 point

48

## Scoring Rule

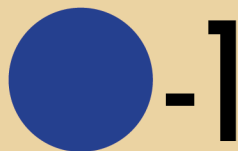

Each Brown card is -1 point

49

## Scoring Rule

Each Brown card is -1 point

50

## Scoring Rule

Each trump card taken is -1 point.

51

## Scoring Rule

Each 7 card taken is worth +3 points.

52

## Scoring Rule

Each 15 card taken is worth -3 points.

53

## Scoring Rule

Any player who takes no tricks scores 10 points.

54

### Scoring Rule

Any player who takes exactly one trick scores 5 extra points.

55

### Scoring Rule

Any player who takes an even number of tricks (0 counts as even) scores double points.

56

### Scoring Rule

The player who takes the fewest tricks scores double points. In case of a tie, all tied players score double points.

57

### Scoring Rule

Each player also subtracts the points of their right-hand neighbor. If these points are negative, they are added.

58

### Scoring Rule

Each player also receives the points of their left-hand neighbor. If these points are negative, they are subtracted.

59

### Scoring Rule

The sign (positive or negative) of each player's score is reversed. Positive points become negative and vice versa.

60
